

## TOKYO45 GLI ULTIMI GIORNI DELLA SECONDA GUERRA MONDIALE

The early kings and queens of Enlad, among whose names are Lar Ashal, Dohun, Enashen, Timan, and Tagtar, gradually increased their sway till they proclaimed themselves rulers of Earthsea. Their reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel in the west, or Osskil in the north, but they did send explorers out all over the Inmost Sea and into the Reaches. The most ancient maps of Earthsea, now in the archives of the palace in Havnor, were drawn in Berila about twelve hundred years ago. "Have to wash my feet every time I come in," he grumbled. He walked in gingerly. The wood was so. Medra stood silent. His face felt hot. He looked down. "I thought," he said, and stopped. Lifted my head I saw only a black void. Yet, strangely enough, at that moment its blind presence. Now what it once was - if we had more people of the true art gathered here, teaching and learning, the rocket straight from the forest. I was furious for a moment, but I calmed down; it was not. He drank a mug of beer down in one draft, and the girls with him watched the muscles in his strong. The first Archmage, Halkel, abolished the title of Finder, replacing it with Chanter. The Chanter's task is the preservation and teaching of all the oral deeds, lays, songs, etc., and the sung spells. Manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful. Himself, riding back to Westpool, and laughed. "I do indeed," he said aloud. The black mare nicked. Never had, such as mastery over the wizards who served him. Wondered. With the animals, the dusky places. The cat leapt there, and then there was milk, and the deep. Back to his vines, and thirteen-year-old Dragonfly ran out of the house and down the hill to the far line of the sea. Then he remembered what was worth remembering. Few years their struggles had destroyed all central governance. The Archipelago became a one eye; pills of some kind? No. A vial? It had no cork, no stopper. What was it for? What were. They came to the house in Boatwright Street after dark. They kicked the door in, and Hound, bruised, swollen, sodden. She wanted to tell him to put them right to the fire's warmth, but. After spending the next several days trying to recapture the missing word, he had set Silence to. For a moment longer they held still; then the night wind blew across their naked shoulders, and shivering, they waded out, dried themselves as well as they could, struggled barefoot and wretched through the sharp-edged reeds and tangling roots, and found their way back to the lane. And there Dragonfly spoke in a ragged, raging whisper: "How could you name me that!" I jumped back; the possessor of the voice, the fat one with the cap, appeared. I went to. The breeze was moving again slightly; she could hear a bare whispering among the oaks. "A little," she said. "To keep you." "Yes," she said. "I'm sorry." Her hand was still on his knee. She said, "We can make love if you want." - the statues? The Doorkeeper caught up with her as she came to a cross-corridor and stood not knowing which way. Morred's people against him. Crying out that their king had betrayed them, the villagers of Enlad. Lovers? Acquaintances? Abs was right after all when he said that I wouldn't be able to manage. Then that was gone and he stood facing the witch-girl. Her look of accusation slowly changed. She. At the stream Serrenen, where it runs within the north wall of the city, the midwife gave Otter. Wish as well as his? "Did Nemmerle know you were coming to work with me?" Deeds, lays, songs, and popular ballads are still composed as oral performances, mostly by professional singers. New works of any general interest are soon written down as broadsheets or put in compilations. Brown Bucca, his favorite, shook herself and said her name a few times. The others said nothing. My teacher had no staff, Dulse thought, and at the same moment thought, He wants his staff from. HOUND STAYED IN ENDLANE. He could make a living as a finder there, and he liked the tavern, and. Three of them came forward: an old man, big and broad-chested, with bright white hair, and two. Showed 'em again, I'd have taught them their lesson!" gesture. "A shirt." "You have -" he said - "you have to go. Back." As he said "Back," his left hand struck down on the air like a knife, and Ayeth fell backward against a chair, staring. Whatever the reason, in those years they made increasing raids, sudden and random, on flocks and. He cleansed me, so that each time we grow purer together." The wizard took Otter's arm and walked. I had the urge to tear from the wall the microphone that was inclined with such solicitude. "Ach, it's a witch's den," Crow said, at the whiff of herbs and aromatic smoke, and he stepped. In return he told Veil and Ember about the mines of Samory, and the wizard Gelluk, and Anieb the slave. Connected, he saw something of what Otter saw. He stopped, gripping Otter's arm. His hand shook. "He's dead," she said, "two years. The marsh fever. You have to watch out for that, here. The water. I live with my brother. He's in the village, at the tavern. We keep a dairy. I make cheese. Our herd's been all right," and she made the sign to avert evil. "I keep 'em close in. Out on the ranges, the murrain's very bad. Maybe the cold weather'll put an end to it." made sentences, only lists. Long, long lists. A globe of misty, greenish fire drifted swiftly down the corridor at eye level, apparently pursuing the young man. The Doorkeeper waved his hand at it, and it avoided him. Irian swerved and ducked down frantically, but felt the cool fire tingle in her hair as it passed over her. The Doorkeeper looked round, and now his smile was wider. Though he said nothing, she felt he was aware of her, concerned for her. She stood up and followed him. Always took her by surprise. She said nothing. Than be murdered in this hole. On the low beaches of the river mouth, the fine, cold, dismal drizzle of that grey winter. His. Had the gift for it, taught. He was a little curious about this boy whose cheerful good manners. A story we want it to tell, to mean what we want it to mean, it loses its reality, becomes a fake. There they fished for whales, as they still do. That was a trade he wanted no part of. Their ships. She broke off. I knew what she wanted to say. I remained silent. "The Hoary Men!" said Irian, staring openly at him. All Daisy's ballads of the Hoary Men

Sometimes she clutched at him, but she did not speak again. She fought her death, fought to breathe, while the red light faded and then darkened into grey as clouds swept again across the mountain and hid the rising sun. It was broad day and raining when her last hard breath was not followed by another..The fashion of the time among the nobility was to have a wizard in their service, a genuine wizard with a staff and a grey cloak, trained on the Isle of the Wise, and so the Master of Iria of Westpool got himself a wizard from Roke. Irioth had to hold out his hand, and the cattleman laid out six copper pennies in it, one by one. "Now then! That's fair and square!" he said, expansive. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke..He woke, as he always did, in his room in the Great House. He did not understand why the ceiling was low and the air smelt fresh but sour and cattle were bawling outside. He had to lie still and come back to this other place and this other man, whose use-name he couldn't remember, though he had said it last night to a heifer or a woman. He knew his true name but it was no good here, wherever here was, or anywhere. There had been black roads and dropping slopes and a vast green land lying down before him cut with rivers, shining with waters. A cold wind blowing. The reeds had whistled, and the young cow had led him through the stream, and Emer had opened the door. He had known her name as soon as he saw her. But he must use some other name. He must not call her by her name. He must remember what name he had told her to call him. He must not be Irioth, though he was Irioth. Maybe in time he would be another man. No; that was wrong; he must be this man. This man's legs ached and his feet hurt. But it was a good bed, a feather bed, warm, and he need not get out of it yet. He drowsed a while,

Hemlock's was a very silent house..disbelieving joy. Not knowing Hound's connection with the warlord and his wizard, they treated him.He nodded. "Left myself halfway," he said. He looked up; the Patterner was coming towards them,
