You know more about it than I do, Matt." "But this evening as Amos came into the tavern, Billy was quiet, and so was everyone else. Even. I lit a cigarette and leaned back in the swivel chair. The whole thing was spinning around in my head.. Unfortunately, launching twelve thousand torpedoes simultaneously put a serious overload on our computer system. Zorphwar runs at A-1 priority on our machine, which means that any other use of the machine is halted while Zorphwar computations are completed. As you may have noticed, it took approximately forty minutes for the machine to compute the paths through the galaxy of those torpedoes, to determine their impact points, and to calculate the radius of destruction of each burst. Normally such overloads are handled by adjusting the work load in the Computer Center. However, at three thirty yesterday, the Center was in the midst of printing the paychecks for the entire Computer Products Division. The little delay our game occasioned upset the very tight schedule for that operation. As a result, all checks from R through Z were not printed on time and failed to make the courier flight to the West Coast That is the reason your paycheck was not delivered to you today. Regrettably, it is also the reason that Division President Tailing and Corporation Comptroller Westland were not paid this week. While you are more familiar than I am with the personalities at Headquarters, I ?aspect that both of these gentlemen like to receive their paychecks. I trust that, if any investigations come out of this little incident, you will do your best to emphasize the fact that the Zorphwar program has already been modified to permit the launching of no more than tea doomsday torpedoes in one attack. Thus, this particular problem on never occur again.. Hart bleed..it?". "Very well then, I have a plan." Again Amos began to whisper through the bars, and Jack smiled and. "Look, I've never had one, and never planned to. I'm thirty-four years old and never, never felt the lack. I've always wanted to go places, and you can't with a baby. But I never planned to become a colonist on Mars, either. I... things have changed, don't you see? I've been depressed." She looked around, and Song and Ralston were nodding sympathetically. Relieved to see that she was not the only one feeling the oppression, she went on, more strongly. "I think if I go another day like yesterday and the day before? and today? I'll end up screaming. It seems so pointless, collecting all that information, for what?" "selves on report." She laughed and beckoned them over to her. They linked arms and stood staring up at the sky.. Did she expect him to recognize her? She was beautiful enough, certainly, to have been someone he ought to recognize, but if he had seen her on TV, he didn't remember. In a way she seemed almost too beautiful to be a noted personality, since there is usually something a little idiosyncratic about each of them, so they can be told apart. Columbine Brown was beautiful in the manner not of a celebrity but of a deluxe (but not customized) sports car.. "Maybe so. But just because we're colonists
