The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its

presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," alath. This word is by etymology (from the True Runes Atl and Htha) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is alherath, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon..It was as strangely quiet as the farmlands. Not a voice, not a face. It was difficult to feel uneasy in an ordinary-looking town on a sweet spring morning, but in such silence he must wonder if he was indeed in a plague-stricken place or an island under a curse. He went on. Between a house and an old plum tree was a wash line, the clothes pinned on it flapping in the sunny breeze. A cat came round the corner of a garden, no abandoned starveling but a white-pawed, well-whiskered, prosperous cat. And at last, coming down the steep little street, which here was cobbled, he heard voices..choppy seas, but never a storm or a troublesome wind. But Havnor is also the Great Isle, a broad, rich land; and in the villages inland from the port, smooth it seemed soft to the bare sole. "Satin," he said. "You didn't do all that in one day." "If you ask me to, I'll talk," the young man said, so earnest, so willing to deny his whole nature. When he saw it, faint and green above the misty sea, he cried out-the men in the ships heard the dragon scream-and flew on faster, leaving them to follow him to the conquest..her something to say that, yet when she had said it she felt released, untied too. The hierarchic and centralising tendency of this religion lent support at first to the ambition of the Kings of Hupun on Karego-At. By force of arms and diplomatic maneuvering, the House of Hupun within a century or so conquered or absorbed most of the other Kargad kingdoms, of which there had been more than two hundred..Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..in Ember's hair..danger, we met to choose a new Warden of Roke, an Archmage to guide us. Nothing about him appeared..He had power to raise huge waves on the sea, and to stop the tide or bring it early; and his voice could enchant whole populations, bringing all who heard him under his control.
