out in a high, harsh voice. "Come up on to the hill, Thorion," she said.. "Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." From them led the tracks of a man walking, straying up the beach for a long way as it narrowed between the cliffs and the sea. Then the tracks ceased..So it proved. Indeed, to Golden's amazement, Master Hemlock sent back a scrupulous two-fifths of the prenticing-fee. With the packet, which was delivered by one of Golden's carters who had taken a load of spars down to South Port, was a note for Diamond. It said, "True art requires a single heart." The direction on the outside was the Hardic rune for willow. The note was signed with Hemlock's rune, which had two meanings: the hemlock tree, and suffering.. "Yes," I said and felt jittery, as if my words would have God knows what consequence. "I understand that?" "No," Diamond said..The ocean, however, is older than the islands; so say the songs..The existence of magic as a recognized, effective power wielded by certain individuals, but not by all, shapes and influences all the institutions of the Hardic peoples, so that, much as ordinary life in the Archipelago seems to resemble that of nonindustrial peoples elsewhere, there are almost immeasurable differences. One of these differences may be, or may be indicated by, the lack of any kind of institutionalised religion. Superstition is as common as it is anywhere, but there are no gods, no cults, no formal worship of any kind. Ritual occurs only in traditional offerings at the sites of the Old Powers, in the great, universally celebrated annual festivals such as Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at these festivals, and, perhaps, in the performance of spells of magic.. "Whom do you serve?" asked the shorter and younger of the women, speaking for the first time. She sparkle. His family had praised him for the trick and made him show it off to visitors; and then Dragonfly stopped too. She said after a moment, "I'm sorry. But I feel like - I feel like you betrayed me." Shaken by the intensity of that will, Tern straightened up and drew a deep breath. He looked round. The fashion of the time among the nobility was to have a wizard in their service, a genuine wizard. "Where's the girl?" queens and kings of Earthsea," he thought, "and they are only the grass that grows on this hill." first sign of Otter's gift, when he was two or three years old, was his ability to go straight to. The hillside above the stream was that same hill where he had come that day with Tinaral, Anieb's presence within him. It was only a few steps round it to the scar, the seam, still clear enough under the green grasses of summer. he said. "And send the ships out of the bay. What is it you feel? How do you feel it?" "Whom do you serve?" asked the shorter and younger of the women, speaking for the first time. She had a keen, hard face, with long black brows. "Destroy us? Destroy this hill? The trees there?" She looked down to a grove of trees not far from the hill. "Maybe Segoy who made them could unmake them. Maybe the earth will destroy herself. Maybe she'll destroy herself through our hands, in the end. But not through yours. False king, false dragon, false man, don't come to Roke Knoll until you know the ground you stand on." She made one gesture of her hand, downward to the earth. the most vivid conviction of the original kinship of human and dragon kind. And with these tales. He had just obtained, and was vastly proud of, an arcane treatise from Way concerning quicksilver. As he walked he thought; he thought hard; he recalled. He recalled all he could of matters his. All the way down the spinning, reeking stone stairs he talked, and Otter tried to understand, because this was a man of power telling him what power was. Rose nodded. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end. Scattered references and tales from Gont and the Reaches, passages of sacred history in the Kargad. wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House. If Elfarran be not my own, I will unsay Segoy's word. "Do you know whose name you must tell me before I let you in?" Master, never counted among the Nine. A vital ethical and intellectual force, the archmage also. Ivory clapped his hand to his right leg. A dog's tooth had ripped his breeches at the calf, and a. Just as before, Crow was sitting on the coping, bored and restless. He said, "I lost my way. Have I come to the villager?" His voice was hoarse and harsh, a beggar's voice, but not a beggar's accent. Ember usually scowled when he greeted her. She asked him abrupt questions, listened to his answers, and said nothing. Before their marriage, a mage or wizard, whose name is never given except as the Enemy of Morred or the Wandlord, had paid court to Elfarran. Unforgiving and determined to possess her, in the few years of peace that followed the marriage this man developed immense power of magery. After five years he came forth and announced, in the words of the poem. "This is a great thing," I muttered. After a moment, I added, "But it would have been." It's not my word, it's Waris's. But they've refused. They want the Rule of Roke to separate men from women, and they want men to make the decisions for all. Now what compromise can we make with them? Why did they come here, if they won't work with us?" him to, and sobbed in weariness,

and slept. "You take care," the witch said, grim. "Everything's perilous, right enough, and meddling with his appetite. He thought hopefully for a while that he was sick and could miss the party. But the of Ard's was no son of his, had nursed his rage and died unforgiving. Golden reassured him that the wizard had actually said so, though of course what kind of a gift remained to be seen. The boy's modesty was a great relief to him. Golden chewed very slowly, his eyes on the table. Diamond had seen his father look like this when north. The old man waded through the stream barefoot, holding his shoes in one hand and his tall. We cherish the old stories for their changelessness. Arthur dreams eternally in Avalon. Bilbo can. There were no inns on this road through what had once all been the Domain of Iria. As the sun neared the western plains, they stopped at a farmhouse that offered stabling for the horses, a shed for the cart, and straw in the stable loft for the carters. The loft was dark and stuffy and the straw musty. Ivory felt no lust at all, though Dragonfly lay not three feet from him. She had played the man so thoroughly all day that she had half-convinced even him. Maybe she'll fool the old men after all! he thought, and grinned at the thought, and slept. He did as he often did, made a little design out of whatever lay to hand: on the bit of sand on the riverbank in front of him he set a leaf-stem, a grassblade, and several pebbles. He studied them and rearranged them. "Now I must speak of harm," he said..which rotated slowly, like a record. It was not supported by anything, did not even have an axis..seek to have their way.
